

L^AT_EX Document Example

Diogo Ferrari
Department of Political Science
University of California, Riverside

May 31, 2020

1. Intro

This file was created using L^AT_EX from the file `example.tex`. See that file for the details.

2. Math

Below you find some examples of commands defined in `math-commands.sty`

- Expectation

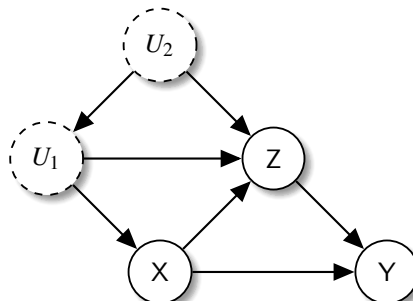

$$\mathbb{E}[Y | X] = f(\mu)$$

- Variance

$$\mathbb{V}\text{ar}[Y | X] = \sigma_{\epsilon}^2$$

3. Diagrams

Below you find some examples of diagrams defined in `math-commands.sty`. For more examples, check `latex-graphs.tex` and `latex-graphs.pdf`
